## THE IMPLEMENT RANGE – CHIPPERS

### The New Generation Bio 90 Chipper Shredder

This special chipper has been built for users who need an efficient solution for shredding various different organic and vegetable waste.

Implementing a single feeder chute for feed-in operations, plus a double chipping and shredding system for a screen-adjusted chipping size.

The grinding system is composed of two sections: the first, formed by 2 chipping blades is used for chopping up wood and fibre products; the second, featuring 6 reversible mobile hammers, shreds products such as leaves, hedge clippings, soil, kitchen waste, etc.

Wood chip and compost chip fineness is adjusted to the required size by way of a self-cleaning sieve. The chip discharge position is also adjustable (see photo).

PTO Driven to fit Category 1 3-point linkage

No. of Blades: 2

No. of Hammers: 6

Weight: 125 kg
