THE IMPLEMENT RANGE – FERTILISER SPREADERS

Produced by Italian manufacturer Nordagri, this spreader has a poly hopper with a capacity of 300 litres and standard category one linkage, making it suitable for most tractors in the 20-60hp range.

Suitable for spreading most types of fertiliser, seeds and also materials such as lime and sand as well as salt for icy conditions.

A balancing system is fitted so you can spread to one side or the other or it can spread from the centre, and with adjustable plates, different spreading widths can be achieved. A full parts and operation manual is included which gives details of how to set the spreader for optimal use.

We have been selling this fertiliser spreader to farmers, smallholders, schools, councils, contractors, private organisations for several years now, with 100% reliability.

Model CN300 Fertiliser Spreader : £425
Hopper Cover : £39.50

All prices quoted are ex-works CTM and are subject to VAT.
