

# All-Terrain Tractors and Transporters

Importers and Manufacturers of Specialist Tractors, Transporters & Machinery

## THE IMPLEMENT RANGE – TRANSPORT BOXES

### Time Proven Design for Strength & Reliability.

This large capacity box is ideal for general purpose light duties around your land, with an easily removable back door (optional) and simple latch with pull-cord trip mechanism and safety pin facility.

The versatility of tractors is much improved if they can be used to carry small loads in difficult areas or in confined spaces, often where it is not practical to use a trailer.

Here at CTM we offer a range of Transport Boxes which can be used for different tasks or loads.

Model	Size	HP	Weight	Capacity	Price
<b>PRM 100</b>	1000x750mm	18-40	120 kg	500 ltrs
